
My life when covid hit i was 8. i was in grade 3 .i had to end my grade 3year early. it wasnt that bad. m I had to do onlin e school, i never really joined the zooms. its was hard. i had a baby sister that was just born. i had a brother , he was 5or 6. when i went back to school i was in grade 4 . We had to year maks and were barley allowed water breaks. but it was alrig ht. but while in the durin during the lock down i was very lucky that my parents let me go ride bikes with my friends everyday .i got to go over to my fri ens house alot. i had a good time in covid. my brother on theother hand. he never got to go biking with frie ns. the reason why is b ecause he juststarted school and so he hadnt made many friends and it was quiet sad.looking bad i realise i could have been more carful. i but im okay. Back to grade 4. i got back together and caught up with them. we had to wher e masks for about the whole rest of the yeara and the year afte r that and a little more thisyar . now masksare off forgood d

Hopefully...
